

## Visits to the overground approach line

After an informative presentation about the NRLA project and the status of work on the Gotthard and Ceneri Base Tunnels, you will be equipped with a helmet and safety jacket. On a guided tour, the NRLA construction sites in the canton of Uri will be explained to you.

You will visit the construction sites of the overground approach line at Altdorf/Rynächt, the tunnel portal at Erstfeld, and the railway systems installations site.
